Places

The capital of Australia is Canberra, not Sydney or Melbourne. Mount Everest is the highest mountain above sea level, at 8,849 metres. The Pacific Ocean is the largest ocean on Earth. Vatican City is the smallest country in the world by area.

Inventions and events

The World Wide Web was proposed by Tim Berners-Lee in 1989, while he worked at CERN. The first people to walk on the Moon were Neil Armstrong and Buzz Aldrin, during the Apollo 11 mission in July 1969. The Berlin Wall came down in November 1989.

The body and the calendar

An adult human body has 206 bones. A leap year has 366 days and comes round every four years, with some exceptions for century years. There are seven continents: Africa, Antarctica, Asia, Australia, Europe, North America and South America.
