Joining the garden

Fernlea Community Garden is run by its members. Membership costs 18 pounds a year and is paid at the March meeting. The garden has 42 plots. Plot rentals start on 1 March each year. At the moment 9 households are on the waiting list, and a plot is offered to the household that has waited longest.

Working the plots

The tool shed is open from 09:00 to 18:00 every day. The garden has 4 compost bins, and kitchen scraps may only go into the green bin. The water butts are refilled every Sunday by the volunteer on the rota. Bonfires are not allowed anywhere on the site.

Safety and visitors

The garden steward is Ruth Calloway. The first aid kit hangs on the wall of the tool shed, next to the door. Dogs must be on a lead at all times. Bean frames and other supports may be no taller than 2.4 metres, so that they do not shade the neighbouring plots.
